

**A MUCH TRIMMED COAT
WITH ADAPTABLE IDEAS**

Old clothes may easily be re-

furbished this season. Many different fabrics may be used in one garment. Coats are much trimmed. A bit of velvet and bands of broad titan braid give a decided air to the simplest coat.

A handsome caracul jacket serves as an example. A band of velvet is set a couple of inches above the bottom, while the flat deep collar and very deep cuffs of velvet are trimmed with titan braid.

The collar extends into a panel and through the broad band around the coat and falls far down upon the dress skirt.

A muff and hat of caracul add to the effect.

**POLICEMAN MURDERED,
STRIKER ARRESTED**

Muscatine, Ia., Nov. 27.—Following the murder of Policeman Theodore Gerischer from ambush early Sunday morning, and the arrest of Thomas Haskins, a union button striker, at Rock Island, charged with the crime, the police today adopted vigorous measures to prevent street fights, forcibly dispersing all crowds.

A telegram from Rock Island says Haskins denies any part in Gerischer's murder. The coroner's jury charged him with the crime. Officers are now on the way to Rock Island to bring him back.

Four witnesses to the murder, all striking button workers, are held.
